Lead UX Designer · Enterprise & Platform Experiences

+91 7045200091 • pinka.parab@gmail.com

SUMMARY

Lead UX Designer with 10+ years shaping enterprise and product platforms across commerce, logistics, and SaaS environments. I focus on bringing structure to complex workflows, helping teams move from ambiguity to clarity, and evolving interaction approaches that scale across systems rather than individual features.

CORE STRENGTHS

Enterprise UX • Platform Thinking • Interaction Design
Operational Workflows • Product Thinking • UX Strategy
Discovery & Problem Framing • Cross-functional Collaboration

EXPERIENCE

CIMPRESS - Lead UX Designer

Mar 2022 – Present | Mumbai (Remote)

- Work across enterprise commerce and operational tooling, helping teams simplify complex order and post-order workflows.
- Structure problem spaces before solutioning - aligning business rules, user needs, and system behaviour into clear design direction.
- Shape experiences around replacements, eligibility, and support workflows by turning backend logic into usable decision paths.
- Evolve shared interaction approaches that bring consistency across the platform over time.
- Act as a steady design partner to product and engineering, contributing a system-level perspective to everyday decisions.

FREIGHT TIGER — Senior Product Designer

Mar 2021 – Feb 2022

- Designed logistics workflows and operational dashboards supporting daily decision-making.
- Simplified complex data experiences through clearer structure and interaction patterns.
- Partnered closely with product teams to translate operational challenges into practical UX solutions.

TREPUP — Product Designer

Aug 2018 – Jul 2020

- Delivered end-to-end UX design across discovery, flows, and high-fidelity interfaces.
- Built responsive product experiences across web and mobile.

ZWEAT — Head of Design

Sep 2017 – Apr 2018

- Led design direction across product initiatives and introduced more structured design practices.

DRONAHQ — UX Designer
